

## AN INTRODUCTION TO SINGAPORE STYLE MATHS **AT BELLEVILLE**

This programme is aimed at teachers who are due to begin teaching Singapore style maths at their schools.

The three day course is an introduction to Singapore style maths, with opportunities to learn the theory and then observe it in practice with leading practitioners in Singapore style maths. The training will ensure that participants feel confident in beginning to teach Singapore style maths.

**The programme consists of three one-day sessions, focusing on key topics such as:**

- **The theory behind Singapore maths**
- **Teaching the four number operations**
- **Bar modelling**
- **Questioning**
- **Challenge and support**
- **Planning and structuring lessons**
