

PRE-NQT INTRODUCTION TO SINGAPORE STYLE MATHS AT BELLEVILLE

This programme is aimed at teachers who have finished their training year and are due to begin their NQT year.

The five day course is an introduction to Singapore style maths, with opportunities to learn the theory and then observe it in practice with leading practitioners in Singapore style maths. The training will ensure that participants feel confident in teaching Singapore style maths when they begin their NQT year.

The programme consists of five one-day sessions, focusing on key topics such as:

- The theory behind Singapore maths
- Teaching the four number operations
- Bar modelling
- Questioning
- Challenge and support
- Planning and structuring lessons
